OUR PURPOSE

Young Living is a universally known, household name that is revered and respected for the countless benefits it brings to humanity. Propelled by the world's purest essential oils and oil-infused products, along with our passionate commitment to empowering individuals to whole-life wellness, we champion the modern essential oil movement. A global, purpose-driven wellness revolution is underway, and Young Living leads the charge.

OUR VISION

To bring Young Living Essential Oils to every home in the world.

A photograph of a man and a woman in a kitchen. The man, wearing a blue long-sleeved shirt, is holding a white plastic bag and looking down at it. The woman, wearing a green patterned top and blue jeans, is holding a brown paper bag and looking at it. They are standing in front of a white stove with a wicker basket of utensils on top. On the counter to the left, there are several bottles of Thieves essential oil products. The kitchen is well-lit with natural light from a window on the right and has various plants hanging from the ceiling and shelves.

OUR MISSION

Young Living Essential Oils honors its stewardship to champion nature's living energy—essential oils—by fostering a community of healing and discovery while inspiring individuals to wellness, purpose, and abundance.

OUR PROMISE of PURITY FROM **SEED TO SEAL**

For more than 20 years, Young Living has set the standard for essential oil purity and potency. At the heart of our quality promise is Seed to Seal®, a proprietary process that focuses on the five most important requirements for producing authentic essential oils:

SEED

Selecting seeds that will produce plants with optimal levels of desirable compounds is the vital first step in our Seed to Seal process.

CULTIVATE

Our sustainable agriculture expertise ensures that rigorous standards are met, both on Young Living-owned farms and our carefully monitored partner farms.

DISTILL

We combine ancient and modern techniques to maintain the ideal profile of beneficial plant compounds in each batch of essential oil.

TEST

To guarantee consistent quality and purity, our essential oils are tested in our own internal labs, as well as in third-party facilities. Young Living essential oils come from dozens of sources, all meeting our stringent Seed to Seal™ qualifications.

SEAL

We complete our Seed to Seal process by carefully sealing and inspecting each bottle of essential oil in our state-of-the-art facilities before shipping to members worldwide.

For more detailed information on our Seed to Seal process and global farms, visit our newly redesigned SeedtoSeal.com.

— A Look at Our Farms — AROUND THE GLOBE

To ensure that Young Living is able to control every step of the Seed to Seal process, we own a number of farms and work with many other partner and co-op farms around the world. Our team personally travels worldwide to scout farms that offer ideal conditions for growing premium botanicals. This personal, direct involvement in the growing process allows us to ensure that each Young Living product delivers the purity and efficacy our members count on us to deliver.

Fort Nelson

BRITISH COLUMBIA, CANADA

Purchased in 2014, our Northern Lights farm grows and distills black spruce, ledum, yarrow, and other botanicals. As part of our commitment to sustainability, this scenic farm will also be the site of continuous reforestation of the trees we harvest, including the black spruce trees, which are crucial for our popular Valor essential oil blend.

Founder D. Gary Young

St. Maries

IDAHO, USA

Melissa field

These now-200 acres of pristine farmland were Gary Young's first farm purchase and where Young Living started. Never before or since exposed to harmful, modern farming techniques, this farm grows botanicals such as lavender, melissa, and tansy.

Split

CROATIA

Helichrysum field

Croatia is a paradise of aromatic plants. It is not only the land of helichrysum (*H. italicum*) but also of many other crops that will be distilled at the newest Young Living facility. This unique facility will be a fully functioning distillery, manufacturing plant, warehouse, and distribution center.

Simiane-la-Rotonde

FRANCE

Lavender field

Celebrated for its rolling hills and fields of fragrant lavender, the region of Provence, France, is home to our third farm. This picturesque farm grows lavender, lavandin, rosemary, clary sage, and einkorn grain.

“YOUNG LIVING PRODUCTS DELIVER THE
PURITY AND EFFICACY OUR MEMBERS
COUNT ON US TO DELIVER.”

NAPLES, IDAHO, USA

The site of both the Winter Harvest and Spring Replanting events, the scenic Highland Flats Tree Farm is where members are able to experience our Seed to Seal process firsthand. The farm grows and distills Idaho balsam fir, Western red cedar, pine, Idaho blue spruce, and other conifers and is the home of the world's first fully automated, state-of-the-art distillery.

GUAYAQUIL, ECUADOR

The lush, fertile soil in Guayaquil creates a superb environment to grow unique and rare botanicals such as eucalyptus blue, ylang ylang, chocolate, dorado azul, and ocotea, among many others. This farm's state-of-the-art distillery is the largest in South America.

SALALAH, OMAN

Since 2010 Young Living has partnered with local Omani harvesters to obtain and secure our supply of Sacred Frankincense resin. Young Living is the first and only company in the world to obtain permission to distill and export this precious essential oil and bring it into the Western world.

CO-OP FARMS

We also source many of our essential oils from co-op farms around the world. These respected growers work exclusively with Young Living and pledge to adhere strictly to our Seed to Seal process. As an investor in these farms, we closely monitor the quality and authenticity of the botanicals and oils they provide.

QUALIFIED VENDORS

We purchase many of our essential oils from a variety of global vendors whose suppliers abide by our stringent, demanding Seed to Seal process. We rigorously and thoroughly test the essential oils provided by these vendors.

PARTNER FARMS

Besides our own farms, Young Living partially owns many others around the world in partnership with independent growers. Our partners agree to adhere strictly to our Seed to Seal process and are carefully vetted for compliance. Through our partner farms, Young Living is able to support local independent farming while maintaining our absolute commitment to quality.

MONA, UTAH, USA

Our farm in Mona has been growing lavender, hyssop, clary sage, peppermint, goldenrod, and more since 1995. It now also grows einkorn grain. This beautiful farm hosts our annual Lavender Day celebration and many other special events.

What are ESSENTIAL OILS?

Lovingly harvested from farm-grown and wildcrafted plants, herbs, and trees, essential oils are concentrated plant extracts obtained by careful steam distillation, cold pressing, or resin tapping. These pure essential oils are far more powerful than the botanicals from which they are extracted. We offer hundreds of single oils, blends, and oil-infused products, each containing the optimal levels of specific, naturally occurring constituents to maximize their potency. Whether you use oils for aromatherapy, personal care, or household solutions, every aspect of daily life can benefit from the incorporation of essential oils!

How to Use ESSENTIAL OILS

Follow label instructions and the guide below to experience the transformative benefits of essential oils.

AROMATICALLY

Use essential oils aromatically to uplift the spirit.

- Rub 2–3 drops of essential oil between your palms and inhale.
- Add a few drops of essential oil to a bowl of hot water. Cover your head and bowl with a towel. Breathe deeply and slowly.
- Use your favorite essential oils in our many diffusers.

TOPICALLY

Many essential oils are safe and beneficial to use directly on the skin.

- Place 2–3 drops of essential oil directly on the desired area and massage in. Repeat as desired. Always follow the label's dilution instructions.

Caution: Essential oils are very potent and may be irritating to the skin. If irritation occurs, apply Young Living's V-6 Vegetable Oil Complex or any pure vegetable oil to the area to dilute. Citrus-based oils and blends may cause temporary photosensitivity.

INTERNAL

When taking essential oils internally, try these tips:

- Place several drops of oil into a vegetable capsule (see page 52) and swallow with water.
- Add 1–2 drops of essential oil to a glass of water, NingXia Red, juice, yogurt, your favorite sweetener of choice, or plant-based milk and swallow.
- Add 1–2 drops of oil (to taste) to meals when cooking.

Note: Always consult individual product labels for usage directions.

- 2 Tbsp. water

Batter Directions:

1. Preheat oven to 425°F. Fill a muffin tin with 12 paper liners.
2. In a large mixing bowl, sift together the flour, baking powder, baking soda, and salt.
3. In a separate bowl, beat eggs in a stand mixer or with a whisk until smooth. Add the brown sugar and beat on medium-low for 1 minute, then on high for 4 minutes, until the mixture forms thick ribbons.
4. In a medium bowl, stir together the buttermilk, butter, oil, and Blue Agave.
5. Fold the flour mixture into the eggs, using a circular motion to completely incorporate it into the batter. Gently stir the buttermilk mixture into the batter, being sure to scrape the sides and bottom of the bowl as you go. Fold in the Organic Dried NingXia Wolfberries. Spoon the batter evenly into the cups, filling to the rim.
6. Place the muffins in the oven and lower the temperature to 375°F. Bake for 25 minutes, rotating the muffin pan halfway through the cooking time, until a toothpick comes out clean when inserted in the middle of the muffins. Let cool in the pan for 15 minutes, then lift the muffins out and let cool on a wire rack for 10 minutes more before glazing.

Glaze Directions:

In a small bowl, mix together the powdered sugar and Blue Agave, then stir in water until the mixture is creamy. Using the back of a spoon, spread a teaspoon of glaze on each muffin.
